

## **2. TERM OF THE AGREEMENT**

The duration of this addendum will be the same as the main partnership agreement. ODOO grants access to its code repository to PARTNER for all 'Enterprise Edition' modules. This access will be granted as of the signature of this addendum and be revoked should the partnership contract be revoked.

This addendum gives the right to PARTNER to download, modify and install 'Odoo Enterprise Edition' version(s) of Odoo software to any customer signing a 'Odoo Enterprise' contract. This right will stop at the termination of the partnership contract

## **3. CONFIDENTIALITY**

As part of this agreement, PARTNER commits to keep confidentiality of the source code of Odoo Enterprise edition modules licensed under restricted rights (labelled as 'Enterprise Edition') within its staff. The access to clients is governed by the Odoo Enterprise Contract (version 4.0 and above). PARTNER agrees to NOT redistribute this code to 3<sup>rd</sup> parties without the explicit agreement of ODOO.

## **4. PROMOTION**

The partner commits to do its best effort to sell Odoo Enterprise contracts to its clients. To support that, the partner will market in priority the 'Enterprise Edition' version to his/her prospects and clients. The partner has still the option to sell other versions of Odoo should it be needed.
