  - Elico Corp
  - NeoPolus
  - OpenERP
  - Pexego
  - Savoir-faire Linux
  - Serpent Consulting
  - Therp
  - Vauxoo
  - ZikZakMedia

# What goal do we follow ?

- Increase code quality
- Increase code maintainability
- Reduce redundant modules and efforts
- Share maintenance costs and bugfixes
- Share knowledge and point of views

# Why working with the community ?

- To benefit from expertise and experience
- To discover new modules
- To share development effort with other members
- To position yourself as editor of your modules to the rest of the community
- To build and use a set of inter-operable modules and avoid incompatibility
- To know better which module to use
- To ensure mid-long term support on modules

# Meritocracy & Contribution

- Demonstrate long-term commitment
- Start providing quality contributions
  - Bugfixes
  - Merge proposals
  - Code Reviews
- Be sponsored by 2 existing members and join us !

**We Welcome the...**

# OpenERP Community Association

<http://openerp-community-association.org/>

# Who is OCA

- We are the community, and we're building it yet..
- Funding members are:
  - Camptocamp
  - Savoir Faire Linux
  - Therp
  - Vauxoo
  - Akretion

# OCA Mission

- Increase quality of community modules
- Improve visibility
- Give a real vision on which project is the reference in a particular business area
- Reduce similar/redundant developments
- Decrease risk in projects and increase sustainability
- Improve the partnership with OpenERP SA

# Next steps

- Mid-august: Release of the first draft of statuses
- 2 weeks for the community give his feed-back
- 2 weeks for integrating corrections
- 2 weeks for the community to vote and approve
- On the 01.10.13 : The Founders sign the statuses
- People can jump in !

# Questions ?
