

**OPTIMISATION OF YOUR SOLUTION**

This new version of TinyERP is even more powerful: the web mode allows enhancement and appearance of new functionalities. For eg. you can visualize your projects or your stock in graphic mode or in a table, or even create a schedule. With Tiny ERP in the full web mode, boost your performance thanks to new applications.

**EASY ACCESS AND USE**

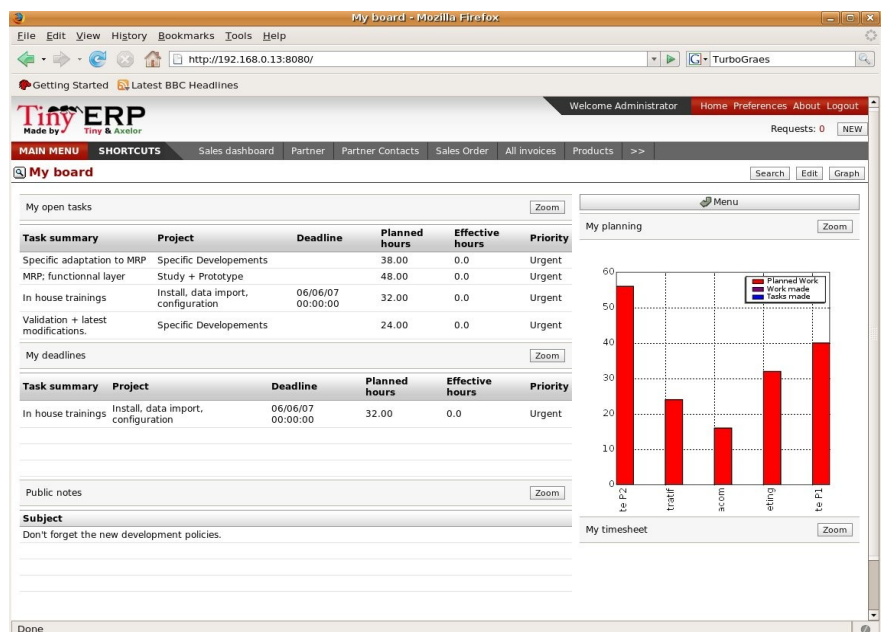

The web mode allows each user to connect easily, with all type of navigators and without any installations. You easily evolve in your work thanks to the easy interconnection with Intranet and Extranet.

**COMFORT IN USE**

The ergonomic enhancement of its interface allows a pleasant and comfortable use. The performance of TinyERP coupled with its new design makes it an essential management tool.

**A MIX OF SIMPLICITY AND PERFORMANCE!**

**The most downloaded open source software now exists in web mode!. TinyERP, in web mode is always more performance, more flexibility and more simplicity with even more accessibility**
